

BT RIGHTreader

**WIRELESS,
CORDLESS.
RFID on the go.**

When mobility is a factor in keeping business efficient, RightTag offers a cordless RFID reader/writer utilizing BlueTooth technology. The most flexible self contained RFID reader/writers at the 13.56 MHz industry standard, the BT RIGHTreader is for commercial and industrial use. And with their BlueTooth capabilities, these readers become as versatile as the technology they contain.

When logged onto a PC, the RIGHT reader will allow users to read tags in a 16 cm range 10 meters from the BlueTooth receiver and change the code on each tag with up to 256 characters, if needed.

BT RIGHTreaders additionally come with a built in USB interface for an easy connection to a host. For tracking attendees, crucial clients, shopping habits, and more, RightTag can get you farther with the BT RIGHTreader.
