

microFlash[®] 8i

Portable Impact Printers ■ ■ ■

features at a glance ■ ■ ■

- **Great battery capacity** gives the 8i enough power to print up to 201 – 11” invoices on a single battery charge, at a speed of 270 cps
- **Easy to load** and unload paper reducing driver training and enhancing reliability
- **No paper jams!** Datamax-O’Neil created a unique paper feed design that literally eliminates paper jams
- **Operates from a vehicle’s 12-volt power system**, no expensive voltage adapters are needed
- **Versatile mounting options** allow mounting wherever needed – from a bulkhead/wall to the dashboard/console
- **Optional wireless Bluetooth connectivity** eliminates the need for mobile workers to return to their vehicle to print invoices
- **Flash memory:** We pioneered the use of Flash memory that allows you to change fonts and functions simply by connecting the printer to a computer
- **We speak your language:** In cooperation with Bitstream[®] fonts, any international character set can be added
- **Rugged and reliable**, the 8i is engineered throughout to endure even the most punishing portable applications

The Datamax-O’Neil microFlash 8i printers generate high-quality, full size, multi-part customer invoices, receipts, load reports, transfers and other documents for route accounting applications at the point of delivery. Datamax-O’Neil’s unique design makes the 8i rugged enough to be used either in the front seat of a delivery vehicle or carried into a receiving area. Holding up to 200 sheets of 8.5” x 11” or A4 paper, the exclusive paper feed design of the 8i literally eliminates paper jams and allows the maximum amount of paper in a small footprint.

The versatile 8i can be powered by your vehicle’s 12-volt system without a voltage adapter, or it can be used remotely with an internal battery pack. The 8i has enough power to print up to 201-11” invoices on a single battery charge, at a speed of 270 cps.
